### Fun and Exciting Classes

Our classes are divided into what we call "ZONES". Each zone consists of fun exciting Creations, projects, Crafts and/or Experiments. Our goal is to build science literacy and unblock the children's imagination. kids will learn how science is a part of everything we have today.

#### Basic Course Outline for Tues. & Thurs.

(Zone-1) Detective science w/magic UV markers & fingerprints, disasters involving snow, then making snow & cooling off with snow cones, fiber optic circuit project, shark activity w/shark tooth, then celebrating Halloween early, making Zombie punch. (Zone-2) Putty making, pop science, growing and shrinking experiments, air pressure & insects.

#### Basic Course Outline for Wednesdays

Solar cars, circuit fans (different from project in Zone 1) excavating & magnetic density tube.

### Pricing

Each Zone consists of 5 or 4 classes. Each class is \$15 per child to attend. Parents are welcome to pay per zone, per class as long as you provide 1 week advanced notice. Full price is \$75 for Zone 1, \$60 for Zone 2, and \$60 for Wednesdays when paying in full up front. We encourage paying for the entire Zone up front to ensure your child's place as we fill up early. Call / text or e-mail and let us know how you prefer. Only discount available is the sibling discount.

Payments may be made through Zelle using [robyn@funwithscience.org](mailto:robyn@funwithscience.org) or by a check/cash in an envelope **marked**, "**Fun with Science**" and with child's name, parents name, along with the dates your child wishes to attend & amount paid. Please drop off the envelope with Anna in the front office. If paying via zelle please include school name, child's name, & for what classes in the memo section.
